Open letter to Richard D. Wolff

Dear Richard Wolff,

I have had much respect for you, as a Marxist, for a long time.

I like your work on cooperatives, up to your early academic work. Your thesis on Kenya was outstanding and a discovery : on the systematic destruction of a native economy.

Unfortunately I am expressing the utmost shock and disappointment regarding your position on Palestine.

Wishing you the very best,

Signed, Camille Akmut 11/04/2026
